Understanding the results

This year DHL eCommerce UK continues to work on bridging the gender pay gap within our business. Despite the majority of our workforce being male, the mean hourly rate favours women and we saw a higher proportion of females receive bonus payments.

Our main focus is to look at ways in which we can address the gap through pay analysis and creating the right environment. We want to ensure we continue to attract more women into the business and develop their careers.

Declaration

We confirm that DHL eCommerce UK's gender pay gap calculations are accurate and meet the requirements of the Regulations.

The calculations, data and assertions confirmed in this announcement have been applied correctly under The Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.
