

GOGREEN CLIMATE PROTECTION PROJECT:
HYDRO POWER PROJECT, NAM LONG, LAOS

Project description

Nam Long Hydropower Project is located 50 km west of Louang Namtha and 9 km northwest of Long District, Louang Namtha Province, Lao PDR. The project is a run-of-river hydropower station. The installed capacity is 5 MW, with annually 37 GWh power supplied to the power grid. The proposed project will result in CO₂ emission reduction, as it will displace the power generation that otherwise would be based on a mix of fossil fuels.

PROJECT: HYDRO POWER PROJECT, NAM LONG, LAOS

Project standard	Goldstandard VER 2707
Project type	Small, Low-Impact Hydro
Technology focus	Hydro Power
Location	Laos
Project scale	Small
Supported SDGs	7, 8, 13
